ABOUT ZRII RISE:

At Zrii, we believe that it's time that you got the best of both worlds: a coffee that tastes great, and is also better for you. Zrii Rise features a rich, gourmet flavor from the world's most coveted Colombian arabica coffee beans—beans that are responsibly sourced from Rainforest Alliance Certified farms. These beans are then blended with two antioxidant-rich ingredients: the rare superfruit amalaki and green coffee bean extract. The result is a product that helps enhance your mood, boost your energy, support healthy digestion, fight free radical damage, and curb cravings. All of this—in one small, convenient single serving stick. Now that's what we call getting the most out of your cup.

PAMPERED. INDULGED.
